Wellness center

Our wellness center, on the second floor of the hotel, is an intimate space adorned in wood and marble – a place to let your body and mind escape the outside world. The center is open to both guests and non-guests, and can also be booked privately outside opening hours.

The wellness center is divided into two sections: a Spa Area and a Beauty Area. In both cases, you can expect attentive, personalised service.

The Spa Area includes changing rooms, a steam room, a stream spa (hydrotherapy and chromotherapy), a sauna with panoramic views across the countryside to the rear of the hotel, an ice fountain, a thermal bath (ideal after the sauna), stimulating showers, a lounge area with teas, herbal infusions and refreshments from our head chef Wout Bru, an outdoor jacuzzi on the terrace and Zero Body, a meditation room on a water mattress.

The Beauty Area, meanwhile, features five treatment rooms, each offering premium-branded facial and body treatments: Salin de Biosel natural cosmetics, which strike a nuanced balance between natural resources and advanced technology; Mesoestetic, the leading name in medical cosmetics known for its cutting-edge research and development; and Jane Iredale, a make-up range that harnesses the power of minerals, with high-quality ingredients that are kind to sensitive skin while delivering incredible staying power and a natural look.
